Activity 1 Case Study

Set the reporting objective and SGX applicability

Real use case: City Developments Limited

Situation

Write a decision-useful reporting objective and determine which SGX 711A/711B components apply. The learner works only from the cited public report and the controlled teaching dataset; company-specific numbers must not be invented.

Evidence provided

CDL reporting page, SGX Rules 711A/711B, applicability worksheet

Discussion and analysis tasks

1. Read the public report profile and identify report users.

2. Write one decision each user must make.

3. Complete the 711A timing and 711B component checklist.

4. Draft an objective naming audience, decision, period and boundary.

5. Peer-review the objective against accuracy, balance and verifiability.

Deliverable and acceptance

Approved objective statement and applicability memo

All six 711B components are marked applicable/not applicable with evidence; the objective names audience, decision, period and boundary.
