Activity 3 Case Study

Design stakeholder engagement evidence

Real use case: CDL materiality process

Situation

Plan engagement that captures affected-stakeholder perspectives and closes the feedback loop. The learner works only from the cited public report and the controlled teaching dataset; company-specific numbers must not be invented.

Evidence provided

CDL materiality reporting, stakeholder register and interview guide

Discussion and analysis tasks

1. Identify stakeholder groups and affected interests.

2. Score influence and degree affected separately.

3. Choose survey, interview, workshop or grievance evidence.

4. Record issues raised and management responses.

5. Draft the disclosure of what changed and what did not.

Deliverable and acceptance

Stakeholder map, engagement log and disclosure paragraph

Each material issue traces to a stakeholder source, management decision and feedback response.
