ADMIN · MANDATORY

Digital Attendance · TRAQOM and SSG

1 **AM**

Scan the QR code and submit through Singpass.

FIELD

2 **PM**

Repeat the digital attendance after lunch.

RULE

3 **Assessment**

Complete the separate assessment attendance.

CONTROL

4 **Evidence**

Confirm successful submission with the trainer.

EVIDENCE

Attendance eligibility uses the SSG digital record; complete all required sessions.

About the Trainer · Dr Alfred Ang

1 Role

Course developer and trainer

FIELD

2 Practice

Technical reporting and applied data

RULE

3 Credentials

PhD · ACTA/DACE credentials on file

CONTROL

4 Delivery

WSQ workplace learning and assessment

EVIDENCE

Named trainer details are presented as a profile; trainers should update only verified credentials.

Learner Introductions as a Stakeholder Map

1 Role

What decisions do you make?

FIELD

2 Sector

Where do impacts occur?

RULE

3 Reporting

What evidence do you own?

CONTROL

4 Goal

What will you apply after class?

EVIDENCE

Listen for different users, boundaries and evidence needs — these become the reporting design problem.

© 2026 Tertiary Infotech Academy Pte Ltd

Ground Rules for Evidence-Based Discussion

1 Participate

Contribute evidence and reasoning.

FIELD

2 Challenge

Question assumptions, not people.

RULE

3 Protect

Do not share confidential company data.

CONTROL

4 Verify

Separate fact, judgement and estimate.

EVIDENCE

Use public or fictionalised data in activities; never disclose personal or commercially sensitive information.

© 2026 Tertiary Infotech Academy Pte Ltd

Course Architecture · Three Learning Units

1 LU1

Objective, boundary, stakeholders and Singapore obligations

FIELD

2 LU2

GRI 1-3, Topic Standards and material-topic evidence

RULE

3 LU3

Data controls, drafting, visualisation, review and release

CONTROL

4 Assessment

WA K1-K5 · Case Study A1-A5

EVIDENCE

The sequence follows the reporting lifecycle: decide why → determine what → prove and publish.

Source: Course Proposal TPG-2023048433

ADMIN · 9:00 AM–6:00 PM

Two-Day Lesson Plan · Controlled Milestones

1

Day 1 AM

LU1 · objectives, boundary, SGX · Activities 1-2

FIELD

2

Day 1 PM

LU2 · GRI architecture and stakeholders · Activities 3-4

RULE

3

Day 2 AM

Material topics and disclosures · Activities 5-8

CONTROL

4

Day 2 PM

Draft, verify, submit · Activities 9-10 · assessment 4-6pm

EVIDENCE

Breaks are 10 minutes; lunch is 45 minutes; the final assessment is WA 60 min + CS 60 min.

Source: Course Proposal: 14 training hours + 2 assessment hours

© 2026 Tertiary Infotech Academy Pte Ltd

Learning Outcomes · Observable Evidence

1

LO1

LO1: Identify objectives of sustainability reports in accordance with organisational procedures.

FIELD

2

LO2

LO2: Structure and collaborate with stakeholders on sustainability reporting based on GRI Standards.

RULE

3

LO3

LO3: Proofread and submit sustainability reports with data displayed effectively to relevant stakeholders.

CONTROL

4

Competence

A complete evidence-linked report pack that survives review

EVIDENCE

Each outcome is practised in Activities and assessed using the original K/A mapping.

Briefing for Assessment

1 Format

Individual · summative · open book

FIELD

2 Materials

Slides, Learner Guide and approved materials only

RULE

3 Conduct

No discussion, photos or recording

CONTROL

4 Submission

Complete and upload the provided document on the LMS

EVIDENCE

Ask procedural questions before the assessment begins; assessment content cannot be clarified during the attempt.

Evidence test · Human-rights due diligence follows the impact pathway

1 Contract

identify, prevent, mitigate, track, communicate and remediate adverse impacts

FIELD

2 Decision rule

prioritise severity and affected-person voice

RULE

3 Failure signature

supplier self-certification replaces due diligence

CONTROL

4 Acceptance evidence

case evidence shows consultation, remedy and effectiveness review

EVIDENCE

Reviewer challenge: can another person reproduce the claim from the named source without asking the preparer?

Source: GRI 2 and social Topic Standards

© 2026 Tertiary Infotech Academy Pte Ltd

Customer disclosures connect incidents to controls

1 Source

GRI 416-418

FIELD

2 Contract

health/safety, labelling/marketing non-compliance and substantiated privacy complaints

RULE

3 Decision

define confirmed case and reporting threshold consistently

CONTROL

4 Evidence

legal, product and privacy registers reconcile to disclosed counts

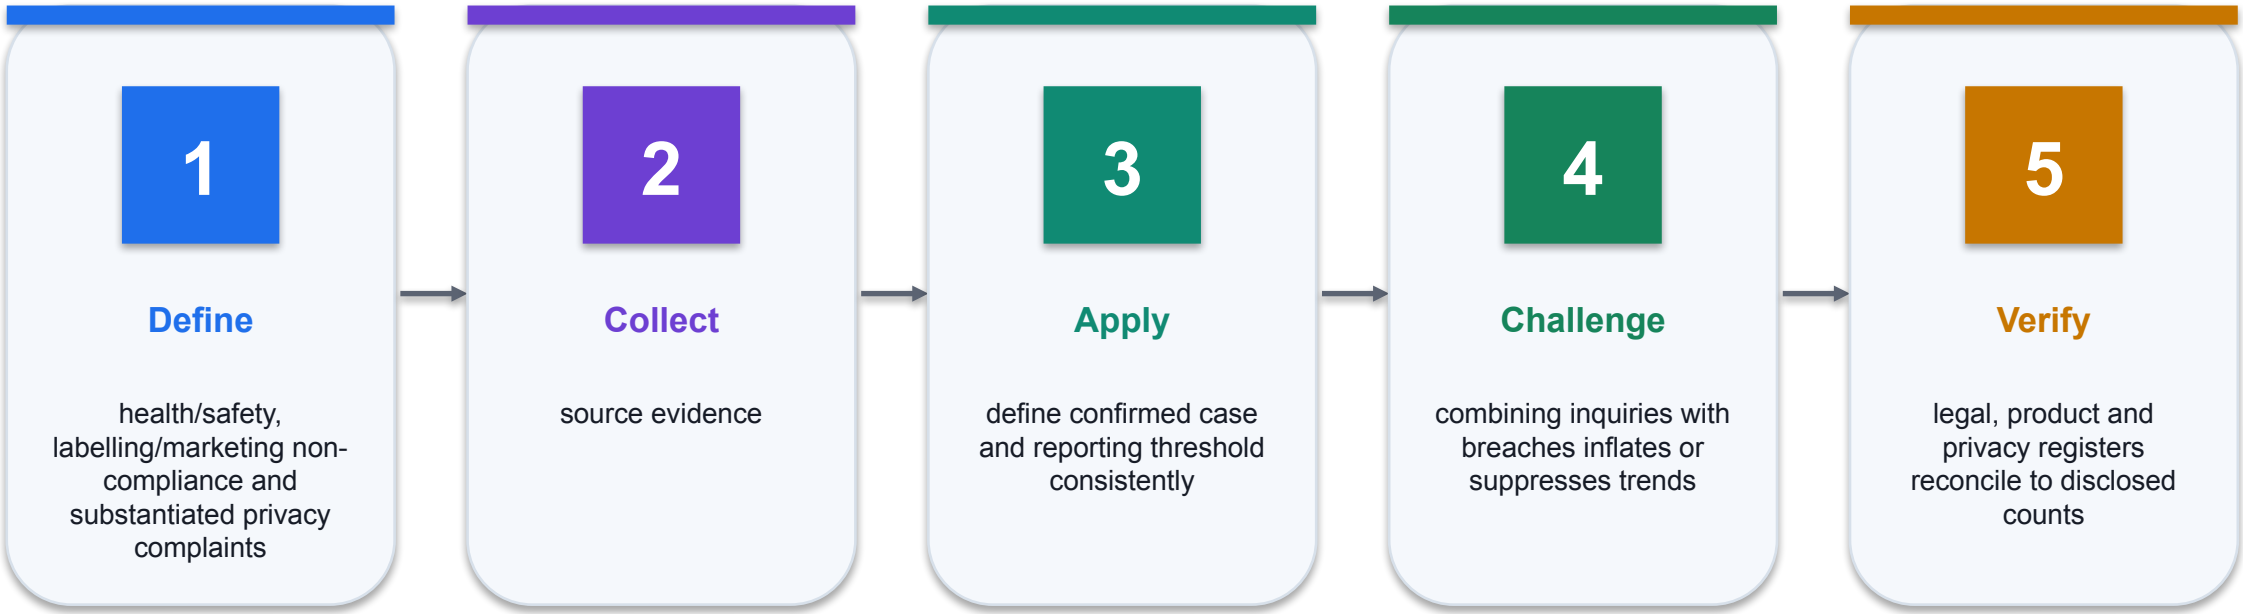

EVIDENCE

Failure mode: combining inquiries with breaches inflates or suppresses trends

Source: GRI 416-418

© 2026 Tertiary Infotech Academy Pte Ltd

Evidence test · Activity 7 acceptance · Calculate environmental GRI metrics

1 Contract

Meter, fuel, water and waste CSV files with factor register

FIELD

2 Decision rule

Calculate energy, Scope 1/2 GHG, water and waste metrics with transparent boundaries and factors.

RULE

3 Failure signature

Missing owner, boundary, rationale or source evidence

CONTROL

4 Acceptance evidence

Recalculation matches reported values; units, factors, boundaries and denominators are disclosed.

EVIDENCE

Reviewer challenge: can another person reproduce the claim from the named source without asking the preparer?

Source: Singapore manufacturing data pack

© 2026 Tertiary Infotech Academy Pte Ltd

Activity 8 · Build social disclosure controls

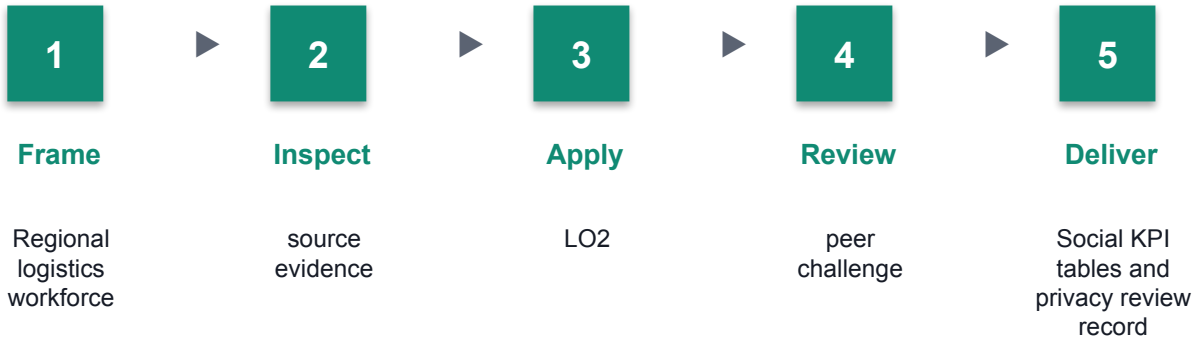

SCENARIO

Prepare employment, safety, diversity and privacy metrics without denominator or confidentiality errors.

INPUTS

HR roster, hours, incident, training and complaint datasets

WORKFLOW — HIGH LEVEL

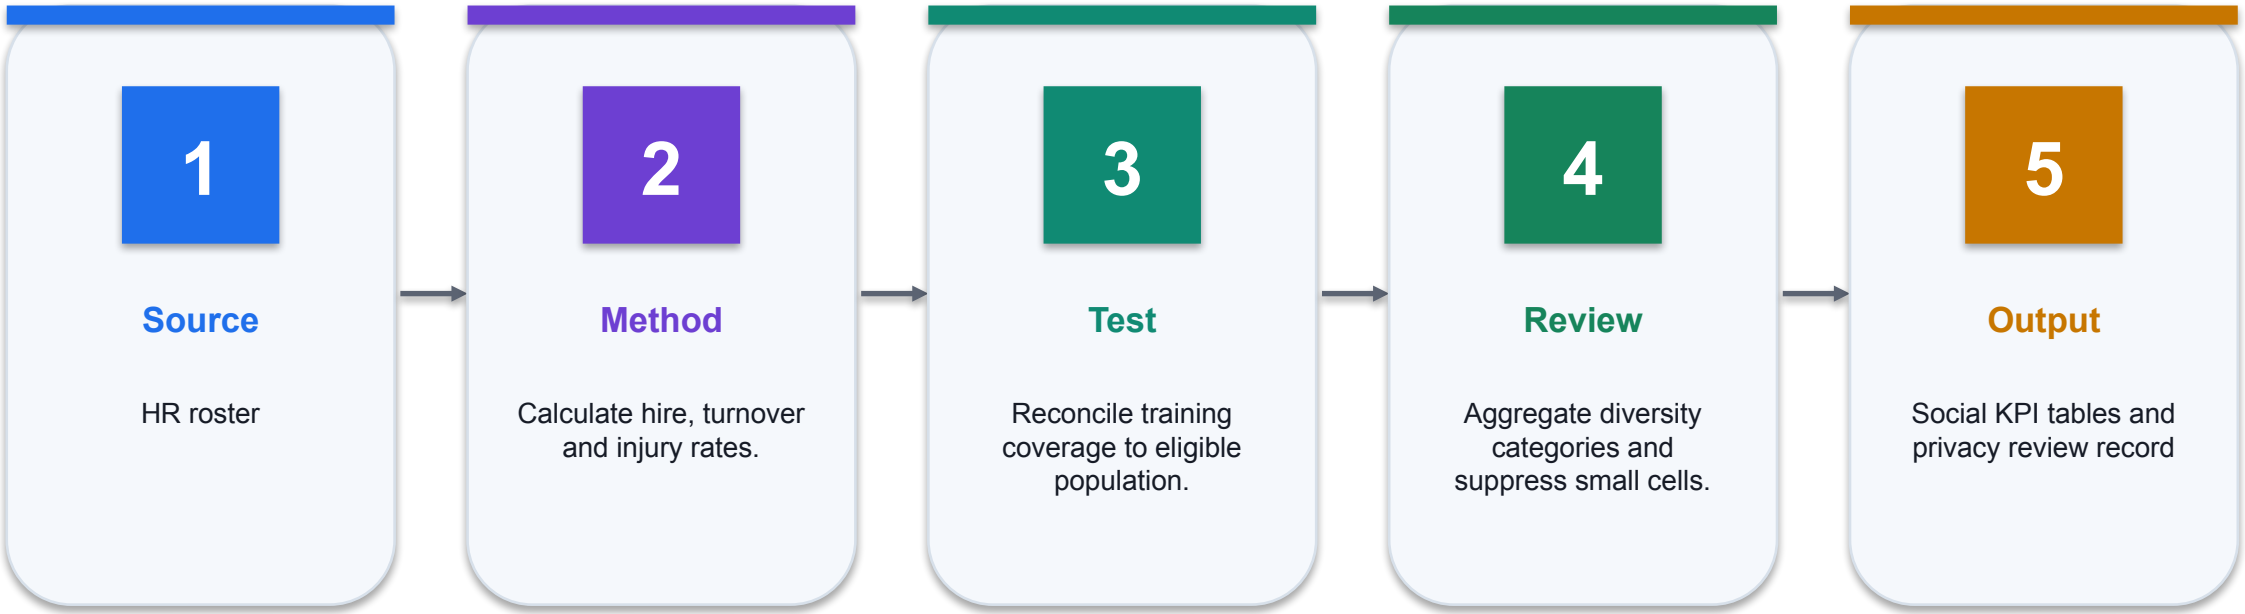

Full procedure: Learner Guide and activities/08-social-disclosure-controls/README.md

Source: Regional logistics workforce

© 2026 Tertiary Infotech Academy Pte Ltd

Activity 8 workflow · decision trace

Prepare employment, safety, diversity and privacy metrics without denominator or confidentiality errors.

Source: Regional logistics workforce

© 2026 Tertiary Infotech Academy Pte Ltd

Evidence test · Activity 8 acceptance · Build social disclosure controls

1 Contract

HR roster, hours, incident, training and complaint datasets

FIELD

2 Decision rule

Prepare employment, safety, diversity and privacy metrics without denominator or confidentiality errors.

RULE

3 Failure signature

Missing owner, boundary, rationale or source evidence

CONTROL

4 Acceptance evidence

Numerators and denominators use the same population; no small cell reveals an individual.

EVIDENCE

Reviewer challenge: can another person reproduce the claim from the named source without asking the preparer?

Source: Regional logistics workforce

GRI 201 Economic Performance

1 Disclosure contract

EVG&D bridge to the financial statements

FIELD

2 Worked method

Revenue → operating costs → employee wages → providers of capital → government → community investment

RULE

3 Control

Reconcile population, period, unit and boundary.

CONTROL

4 Evidence

Retain source record, calculation, review and final location.

EVIDENCE

Activity 7 applies this contract to a controlled teaching dataset.

Source: GRI consolidated Standards set

© 2026 Tertiary Infotech Academy Pte Ltd

GRI 204 Procurement Practices

1 Disclosure contract

Local-spend percentage

FIELD

2 Worked method

local supplier spend ÷ procurement budget for significant locations × 100

RULE

3 Control

Reconcile population, period, unit and boundary.

CONTROL

4 Evidence

Retain source record, calculation, review and final location.

EVIDENCE

Activity 7 applies this contract to a controlled teaching dataset.

Source: GRI consolidated Standards set

© 2026 Tertiary Infotech Academy Pte Ltd

GRI 205 Anti-corruption

1 Disclosure contract

Coverage and confirmed cases

FIELD

2 Worked method

risk-assessed operations; policy communication/training; confirmed incidents and actions

RULE

3 Control

Reconcile population, period, unit and boundary.

CONTROL

4 Evidence

Retain source record, calculation, review and final location.

EVIDENCE

Activity 7 applies this contract to a controlled teaching dataset.

© 2026 Tertiary Infotech Academy Pte Ltd

GRI 305/102 Emissions

1 Disclosure contract

Gross Scopes before offsets

FIELD

2 Worked method

activity data × emission factor × GWP; disclose base year and consolidation approach

RULE

3 Control

Reconcile population, period, unit and boundary.

CONTROL

4 Evidence

Retain source record, calculation, review and final location.

EVIDENCE

Activity 7 applies this contract to a controlled teaching dataset.

Source: GRI consolidated Standards set

© 2026 Tertiary Infotech Academy Pte Ltd

GRI 303 Water and Effluents

1 Disclosure contract

Site water balance

FIELD

2 Worked method

withdrawal − discharge = consumption, assessed in water-stressed locations

RULE

3 Control

Reconcile population, period, unit and boundary.

CONTROL

4 Evidence

Retain source record, calculation, review and final location.

EVIDENCE

Activity 7 applies this contract to a controlled teaching dataset.

Source: GRI consolidated Standards set

© 2026 Tertiary Infotech Academy Pte Ltd

GRI 306 Waste

1 Disclosure contract

Destination evidence

FIELD

2 Worked method

generated = diverted from disposal + directed to disposal, by composition and treatment

RULE

3 Control

Reconcile population, period, unit and boundary.

CONTROL

4 Evidence

Retain source record, calculation, review and final location.

EVIDENCE

Activity 7 applies this contract to a controlled teaching dataset.

Source: GRI consolidated Standards set

© 2026 Tertiary Infotech Academy Pte Ltd

GRI 101 Biodiversity

1 Disclosure contract

Location and ecosystem condition

FIELD

2 Worked method

site coordinates → dependency/impact driver → baseline → action → outcome

RULE

3 Control

Reconcile population, period, unit and boundary.

CONTROL

4 Evidence

Retain source record, calculation, review and final location.

EVIDENCE

Activity 8 applies this contract to a controlled teaching dataset.

Source: GRI consolidated Standards set

© 2026 Tertiary Infotech Academy Pte Ltd

GRI 403 Occupational Health and Safety

1 Disclosure contract

Consistent worker-hours denominator

FIELD

2 Worked method

recordable injuries ÷ hours worked × standard rate, including the defined worker population

RULE

3 Control

Reconcile population, period, unit and boundary.

CONTROL

4 Evidence

Retain source record, calculation, review and final location.

EVIDENCE

Activity 8 applies this contract to a controlled teaching dataset.

Source: GRI consolidated Standards set

© 2026 Tertiary Infotech Academy Pte Ltd

GRI 418 Customer Privacy

1 Disclosure contract

Substantiated complaints

FIELD

2 Worked method

classify inquiries, allegations, confirmed complaints, breaches and remediation consistently

RULE

3 Control

Reconcile population, period, unit and boundary.

CONTROL

4 Evidence

Retain source record, calculation, review and final location.

EVIDENCE

Activity 8 applies this contract to a controlled teaching dataset.
